– Invocation-Generation. – Integration-Embodiment. – Obsolence-Dissolution.

Available today without lame demon deal pacts. WoW! For the meager price of forfeiting your hallucinated soul. Send your soul to your god or whatever. Get real and operate.

Applied high Tibetan magic and random cats floating around. Sitting atop the septic tank with three sticks of incense tucked into a rotten young coconut. Floodlight blasting.

We are arcane tonight. Come the rays of the rising sun, We are arcane in bright daylight. Moonshine sunshine whatever. High magic proper is born of clear cognitive circuitry. This is classic Nightshade Legendarium material.

We are beyond magick. How y-day duh. We are — !MaquiX^12^0! [ applause ] OTO you said? We are OOO. EVEN OO. EVER O. NOT Ø. [ audience is silent ]

**Let us now invoke** super-symmetric daemons of resolution from the high trans-conditional planes.

Then, what are we actually doing here? First, going by the book, the invocation, the generative phase. The daemon is manifest into becoming. Second, the integrative phase. We become one, we embody. Third, obsolence, the dissolution phase. All of this is released, dissipated. The full life cycle.

Not really high magic there. Actually, it is high magic there, but no matter. Very real cognitive processes.

Establishing super-symmetric circuitry with the use of symbols.

Today, all of this available for you without a pact. For the meager price of your soul. Please do not send that soul here. Send it to your God, or by any which way, get rid of it. It is a hallucination, responsible for so many of your obstructions. Even your enemies are born of that fabricated soul of yours. Just get rid of it.

Get real. Engage your cognitive system to its maximum capacity, without attachment to the circuits that you weave. That's all there is to it. Be well.
