### Prime Linked Series in Our Ecosystem

Then for a quick overview of our primary interrelated series.

"By The Way" series. High cognitive load on the road, food for your intellect, insight into things that matter.

"Hearty Chatter" series. Deep musings on the essence of our lives and our well-being as a whole.

"Walkie Talkie" series. Being present as it happens, reaching for the fullness of your being and becoming in actuality.

"Ponder Struck" series. Matters for profound contemplation, deepening the integral wisdom in our lives.

"Casual Watcher" series, reporting live from the witness plane, reflections on nature, society, planes of metacognition.

"Brief Snaps" series, catalytic jolts to break through the veils of your illusions and self-deception.

These are all series hosted on the "Kernel Island", thematic cluster with a broad spectrum of insight. Diverse framings, diverse contexts, different tunings, different voices. All stemming from the same underlying essence. Explore the series in parallel. Into convergence, the planes of metacognition.

## Our Thematic Islands of Emerging Insight

Beyond that, many are the islands in our growing ecosystem. "Basic Island", perspectives for the newcomer. "Quest Island", orientation and guidance for seekers on the path of self-discovery. "Yonder Island", symbolic tales and peculiar personas to bring life and narrative into the abstractions. "Retro Island", glosses on classical teachings and wisdom traditions. Finally "Harvest Island", compilations and recaps from all around the archipelago of our content ecosystem.

There is no single niche here, not a single bucket. Do not put yourself into a silly little bucket. We bring you the broad spectrum of works for your well-rounded cognitive evolution. This here channel, @Mr.Om.Ananda, our foundry, first cuts, material published as it happens. In our broader universe, our subsidiary sister channel, @KernelDrops. Upcycling, refining, transforming these source materials into longer anthologies, uncut editions, short wisdom bites.

## I Am Not a Bucket Dwelling Creature

I am not a one-topic creator. This is not a one-topic channel. I'm a coder, I'm a philosopher, I'm a mystic. I'm a farmer, cat caretaker, house builder carpenter, therapist. I'm an artist, poet, random fiddler on the rooftop. Storyteller, myth maker, metacognitive wizard. Please realize, I will never fit into any one of your buckets.

This is an ever-growing multi-bucket mesh of convergence. One bucket for each sentient being on this planet. And for those of you who step outside of your buckets, it's all relevant, have a see. So that's that, hope it gets you out of the box, gives you bearings, orientation into what's actually going on here. I hope you make the most of it.

Thank you very much and see you in the comments section of our next episode. Any one of these series, who knows what comes up next, but it's all relevant. Watch it all.

All right, I'm walking the dog, need to roll on. Keep on reeling on. Keeping it real. Always in the clear. Thus concludes the creator transmission from the tree-tops.

Big picture for all the people in every context. Okay, that's our niche.
